Total estimated cost is \$3.5 billion.

The United Kingdom is a close NATO ally and an important partner on critical foreign policy and defense issues. The proposed sale will enhance U.S. foreign policy and national security objectives by enhancing the United Kingdom's capabilities to provide national defense and contribute to NATO and coalition operations.

The proposed sale will improve the United Kingdom's ability to meet current and future threats by providing a heavy lift rotary wing capability able to execute missions in extreme environments across a full range of military operations. The United Kingdom will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor of this sale will be Boeing Defense and Space, Ridley Park, PA. There is no known offset agreement associated with this proposed sale.

Implementation of this proposed sale will require approximately 29-32 U.S. Government personnel and 26 contractors assigned to the United Kingdom plus 3 equivalent man years TDY to support fielding and initial sustainment for a duration of 3-5 years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
